

ONE DAY ONLINE SEMINAR

Online Seminar on Digital Technology in Process Industries

(Utilization of AI/IoT)

We are looking for participants from 30 companies active in the target areas identified, with up to two attendees from each company. Applications for attendance will be closed once all the places have been taken.

**16 September 2021,
13:00 – 16:45 (Thai time)**

Language : Thai (with Japanese- Thai consecutive interpretation)

Fee : Free of charge

Web meeting system : Microsoft Teams

Target

participants :

Company executives, business unit leaders, and members of the production, process safety, DX, and IT departments of companies in the oil, petrochemical and related process industries, together with other interested parties.

Benefits

for participants :

Participants will be able to identify their company's progress towards the implementation of a smart industrial safety policy, and any additional actions that will be required to meet this goal

Supported by :

Thailand – Japan

Smart Industrial Safety Consortium
